Season snow log SAMPLE

SAMPLE: Buffalo City Hall lot
65 Niagara Square, Buffalo, NY 14202
Matched by the US Census geocoder as 65 NIAGARA SQ, BUFFALO, NY, 14202 (42.8866, -78.8788), Erie County

Season: Nov 1, 2025 to Apr 30, 2026 · **Made:** 2026-11-06 15:04 UTC

SAMPLE The site is a stand-in: a real public address with a made-up contract. The service entries are made up to show the format. The weather readings are real.

- Not certified; for billing records, not legal or insurance claims.
- These are readings published by the National Weather Service, NOAA and volunteer observers, collected as published. They are not a meteorologist's analysis. No reading was taken at this address; each source shows how far away it is, and lake-effect snow can differ a lot over a few miles.
- Storm totals add every daily report dated from a storm's first day to the day after its last day, because most volunteer reports cover the 24 hours ending at the observer's morning reading.
- A blank means nothing was reported, not zero. T means a trace (less than 0.1 in), counted as 0 in totals.
- Service entries are the contractor's own record, as entered. Smallfire Lab did not check them.

Sources, reference first
