[YOUR BUSINESS NAME]: Seasonal HVAC Preventive Maintenance Checklist

Fill in the [BRACKETS], delete items you don't do, and save a copy per visit. Suggested timing: cooling system in spring, heating system in fall.

Customer: [name]

Site address: [address]

Date of visit: [date]

Technician: [name]

Equipment make / model / serial: [fill in]

Spring: cooling system

Done	N/A	Item	Notes / reading
☐	☐	Thermostat: settings and schedule suit the customer when home and away	
☐	☐	Electrical: connections inspected for tightness; motor voltage and current measured and recorded	
☐	☐	Moving parts: lubricated where the manufacturer calls for it	
☐	☐	Condensate drain: inspected and clear; pan free of standing water	
☐	☐	Controls: starting cycle checked; unit starts, runs and shuts off properly	
☐	☐	Indoor (evaporator) and outdoor (condenser) coils: inspected and cleaned as needed	
☐	☐	Refrigerant level: checked by a certified technician and result recorded (record only; this sheet gives no handling steps)	
☐	☐	Blower: cleaned and adjusted; airflow looks right at the registers	
☐	☐	Air filter: checked; replaced or customer shown how to change it	
☐	☐	Outdoor unit: area around it clear of leaves, weeds and debris	

Fall: heating system

Done	N/A	Item	Notes / reading
☐	☐	Thermostat: settings and schedule suit the customer when home and away	
☐	☐	Electrical: connections inspected for tightness; motor voltage and current measured and recorded	

☐	☐	Moving parts: lubricated where the manufacturer calls for it	
☐	☐	Condensate drain (high-efficiency furnace or heat pump in cooling mode): inspected and clear	
☐	☐	Controls: starting cycle checked; unit starts, runs and shuts off properly	
☐	☐	Gas or oil connections, gas pressure, burner combustion and heat exchanger: inspected by a qualified technician; result recorded	
☐	☐	Blower: cleaned and adjusted; airflow looks right at the registers	
☐	☐	Air filter: checked; replaced or customer shown how to change it	
☐	☐	Flue / vent and surrounding area: visually checked for obstruction or damage; result recorded	
☐	☐	Carbon monoxide alarm present and tested by the customer (note only)	

Follow-up needed

[Anything found that needs a repair quote or a return visit]
